Stephen mobilized Sunday morning when we learned that the Incidnet Commander and State-HazMat team were/had demobilized. However, we were actively monitoring the situation and providing technical assistance through the State-Comms process since notification. I am not suggesting you put all that in, but just wanted to give you the background on how things went down...

"EPA was notified of the event on Saturday and an On-Scene Coordinator was sent to the scene for a first-hand look. EPA is currently providing oversight while U.S. Ecology is taking the lead on clean up. We continue to evaluate how we can best support the response, in partnership with the state of Idaho and Company responders."
